**Subject:** Report back

Dear Brethren,

It has been a very hot year with almost no rain, it is reported that this might be the worst drought for 20 years, we had a little rain in November last year but that has been all.

However the Lord has been good to us with health and strength , we have also had an exciting start to the year with the Lords word and the work for him in Africa, of which you are all part and without your

Help and support could not go on.

Two weeks ago I had brother Ken Mac Daniels and brother Joe Greer fly in from the USA, and we set off on our Journey to the North, I had set all plans when I was there a few weeks before, however

When we got to our first destination all the plans when wrong with lots of miss understandings about dates and times etc, we then landed in a total different area than planed, but what and exciting time,

With Gods providence 3 new Churches were planted one in the boarder Town of Beit Bridge I had been praying for this to happen for some time, there is a lot of work to be done now in the years

That lie ahead in teaching and grounding these Churches, the men we have been training as preachers will play a great roll in this work to ground these Churches, my son Warren has also offered to help in this which will also make it possible for him to make shorter trips away from home,

From this area we headed north from Biet Bridge to Victoria falls meeting with brethren and having meetings with 4 Churches that during the years I have been involved with , these brethren do a good work it was good to see

Them all again it is not always possible to travel so far with all the new churches I work with now, I was also able to get extra fuel with the help on a Nephew is Zimbabwe always a big problem to travel far in Zimbabwe.

I am home only this weekend, to drop off Brother Joe who is homeward bound and to collect Brother Mike Munson from Blue Springs who will be with us for the next two weeks,

Thank you to all who helped with the Truck it is on its way and I was blessed through brethren who made it possible for me to purchase a new truck for my work all the funds were give for this thank you all again.

The temperatures are in the 100 s pray for rain for those in Zimbabwe and South Africa, the brethren in Mozambique need your prayers they have had floods with quite a bit of damage, I have not as yet heard

Of any Christians who perhaps lost homes etc but will keep you all posted.

How can not write the words that would thank you all enough for your confidence in me to do Gods work and for your love and support.

Please keep praying for Warren we thank all those who sent him encouragement it keeps him going.

Your brother in Christ

John Scholtz
